

Lecture 7 — Python & Django Question Bank

Lecture 7 preparation document with multiple choice questions, fill in the blanks, contextual code snippets, and answer keys.

Part 1 — Multiple Choice Questions

1. What typing model does Python use?

- A) Static typing
- B) Manual typing
- C) Dynamic / duck typing
- D) Interface typing

2. Which container is mutable and ordered?

- A) tuple
- B) set
- C) list
- D) dict

3. Which container is immutable and ordered?

- A) list
- B) tuple
- C) set
- D) dict

4. Which container stores key-value pairs?

- A) dict
- B) list
- C) set
- D) tuple

5. Which container stores unique unordered values?

- A) list
- B) tuple
- C) dict
- D) set

6. What does `append()` do?

- A) Removes item
- B) Adds item to end
- C) Sorts list
- D) Clears list

7. What does `student.get('grade', 'N/A')` provide?

- A) HTTP response
- B) Safe fallback lookup
- C) Sorting
- D) Mutation

8. What do `*args` represent?

- A) Variable positional arguments
- B) Keyword arguments
- C) Route params
- D) Lists only

9. What do `**kwargs` represent?

- A) Lists
- B) Variable keyword arguments
- C) Positional args
- D) Tuples

10. What is Django?

- A) Database
- B) Python web framework
- C) CSS framework
- D) JavaScript runtime

11. What does MTV stand for?

- A) Main Template Variable
- B) Model Template View
- C) Module Template Value
- D) Model Type View

12. Which file contains project configuration?

- A) `views.py`
- B) `urls.py`
- C) `settings.py`
- D) `admin.py`

13. Which file handles routing?

- A) `models.py`
- B) `settings.py`
- C) `urls.py`
- D) `apps.py`

14. Which command creates Django project?

- A) `runserver`

- B) migrate
- C) django-admin startproject
- D) startapp

15. Which command starts development server?

- A) makemigrations
- B) shell
- C) python manage.py runserver
- D) migrate

16. Which command creates new app?

- A) python manage.py startapp
- B) migrate
- C) runserver
- D) startproject

17. What does makemigrations do?

- A) Applies migrations
- B) Generates migration files
- C) Starts server
- D) Deletes DB

18. What does migrate do?

- A) Creates migrations
- B) Creates app
- C) Applies migrations to DB
- D) Creates route

19. What is INSTALLED_APPS?

- A) Registered Django apps
- B) Static files
- C) Database engine
- D) Templates

20. What does wsgi.py represent?

- A) Routing table
- B) Deployment entry point
- C) ORM config
- D) Template engine

Part 2 — Fill in the Blanks

1. Add new student to list

```
students._____("Bob")
```

2. Safe dictionary lookup with fallback value

```
student._____("grade", "N/A")
```

3. Variable positional arguments

```
def total(*_____):
```

4. Variable keyword arguments

```
def build_profile(**_____):
```

5. Python constructor method

```
def _____(self, name):
```

6. String representation method

```
def _____(self):
```

7. Install Django

```
pip install _____
```

8. Create Django project

```
django-admin _____ mysite
```

9. Start development server

```
python manage.py _____
```

10. Create new app

```
python manage.py _____ students
```

11. Generate migration files

```
python manage.py _____
```

12. Apply migrations to database

```
python manage.py _____
```

13. Register app in settings.py

```
INSTALLED_APPS = ['_____']
```

14. Import include function

```
from django.urls import path, _____
```

15. Delegate routes to app

```
path('students/', _____('students.urls'))
```

16. Import response class

```
from django.http import _____
```

17. Return simple response

```
return _____("Hello World")
```

18. Dynamic route parameter

```
path('<int:_____>/', views.detail_view)
```

19. SECRET_KEY should never be committed to

```
_____
```

20. wsgi.py is deployment _____ point

```
_____
```

Lecture 7 — Python & Django Question Bank

Lecture 7 preparation document with multiple choice questions, fill in the blanks, contextual code snippets, and answer keys.

Part 1 — Multiple Choice Questions

1. What typing model does Python use?

20. wsgi.py is deployment _____ point

```
_____
```

Answer Key

MULTIPLE CHOICE

1. C
2. C
3. B
4. A
5. D
6. B
7. B
8. A
9. B
10. B
11. B
12. C
13. C
14. C
15. C
16. A
17. B
18. C
19. A
20. B

FILL IN THE BLANKS

1. append
2. get
3. args
4. kwargs
5. __init__
6. __str__
7. django
8. startproject
9. runserver
10. startapp
11. makemigrations
12. migrate
13. students
14. include
15. include
16. HttpResponse
17. HttpResponse
18. pk
19. Git / GitHub
20. entry

Answer Key

MULTIPLE CHOICE

1. C
2. C
3. B
4. A
5. D
6. B
7. B
8. A
9. B
10. B
11. B
12. C
13. C
14. C
15. C
16. A
17. B
18. C
19. A
20. B

FILL IN THE BLANKS

1. append
2. get
3. args
4. kwargs
5. __init__
6. __str__
7. django
8. startproject
9. runserver
